- Please don't use it close to fire source or in any location of high temperature.

Safety Instructions and Warnings

Read all instructions before use:

The appliance is not to be used by children. Persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge may only use this appliance if they are supervised or have been given instruction about how to use it safely and understand what risks are involved. Children should be supervised to ensure they do not play with the device.

Notice and Warnings:

- Please take it gently and carefully to avoid breaking the device.
- Please don't use it close to a fire source or in areas with high temperature.
- Don't use or keep the cleaner in extreme climate conditions, e.g. cooling rooms, high temperature environment, the suggested temperature for use and storage is 0-40°C (32-104°F) of indoor areas;
- Please make sure the filter set is installed properly.
- Do not use outdoors or on wet surfaces, use only on dry, indoor surfaces.
- Do not allow to be used as a toy. Close attention is necessary when used near children.
- Use only as described in this manual. Use only manufacturer's recommended attachments.
- Do not use vacuum if it has been dropped, damaged, left outdoors, or dropped in water. Return it to an authorized service center.
- Do not handle appliance with wet hands.
- Do not put any object into openings. Do not use with any opening blocked; keep free of dust, lint, hair and anything that may reduce air flow.
- Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or got ashes.
- Use extra care when cleaning on stairs.
- Do not use to pick up flammable or combustible liquids such as gasoline or use in areas where they may be present.
- Look on your vacuum and follow all label and marking instructions.
- Keep end of hose, wands and other openings away from your face and body.
- Do not use the vacuum cleaner without dust box filter in place.
- Always unplug this appliance before connecting or disconnecting vacuum hose.
- Store the vacuum indoors. Put the vacuum away after to prevent tripping accidents.
- Do not use for any purpose other than described in this user's guide.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- Don't use the cleaner in or near flammable or explosive conditions.
- Don't use your cleaner to suck glass particles, needles, water, ashes, or any other liquids.
- Don't use your cleaner to suck cement, land plaster, wall plaster or toys, which may cause damage to the device.
- Don't block the exhaust air outlet.
- If the cleaner can't start working even when the battery is full, please go to service agent or Mamibot distributors for inspection, don't disassemble it on your own.
- Don't use the cleaner if dust box and filter set are not in position.
- Dry cloth is suggested to clean the cleaner, no gas/alcohol or other chemical solution is allowed to clean the device.
- Turn off the cleaner first before proceeding with any cleaning task or maintenance.

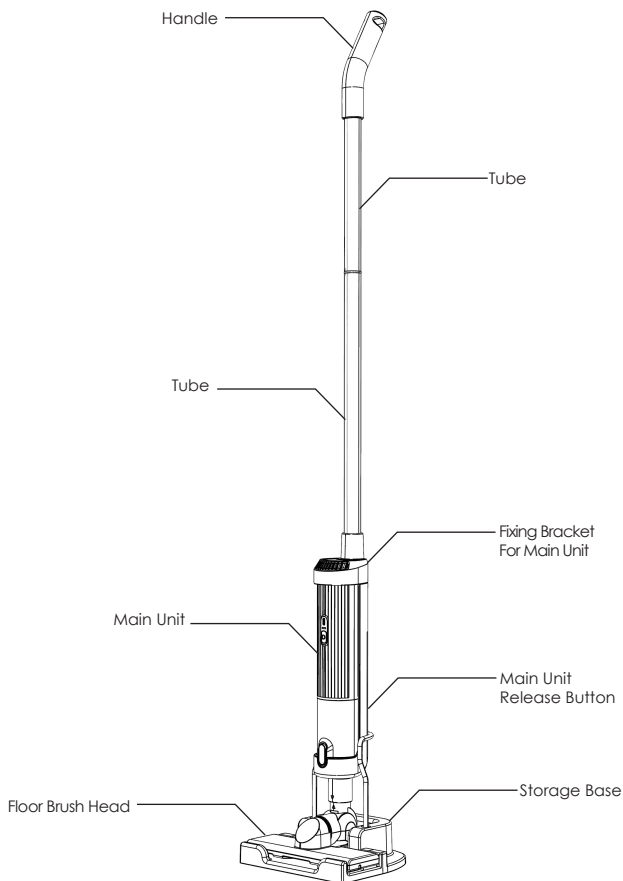

- Please clean the dust box, suction inlet and tube in time to avoid air channel being blocked, air channel blockage would reduce suction power and cause motor heating.
- Hepa filter is suggested to be replaced in three month, or even in a shorter period if the device is frequently used.

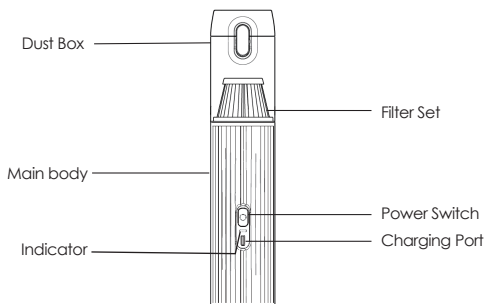

Application of Charging Cable and Battery

- Use only the original charging cable supplied with this device.
 - Please use the proper electric outlet and make sure no heavy objects are placed on the charging cable.
 - Allow adequate ventilation around the charging cable when using it to operate the device. Do not cover the charging cable with objects that will reduce cooling.
 - Do not use the charging cable in a high moisture environment. Never handle the charging cable with wet hands.
 - Connect the charging cable to a proper power source. The input must be 5V DC, 2A.
 - Do not use broken charging cable. The charging cable must be removed from the receptacle before cleaning or maintaining the appliance. Do not unplug the charging cable by pulling on the cable.
 - Do not attempt to service the charging cable. There are no service parts inside. Replace the whole unit if it is damaged or exposed to high moisture. Consult your Mamibot dealer for help and maintenance.
-
- The battery used in this device may present a risk of fire or chemical burn if mistreated. Do not disassemble, short contact, heat above 40 °C (104 °F), or incinerate.
 - Please charge your cleaner at least every three months if you are not using it regularly.
 - Fully charge the cleaner before use if it's not used for a long time.
 - If you have to dispose of this old equipment, please take it to the local recycling center for recycling electrical and electronic parts.
 - Retain the safety and operating instructions for future reference.
 - Do not expose your device to rain or excess humidity, and keep it away from liquids (such as beverages, faucets, and so on).
 - Avoid exposing your device to direct sunlight or intense light source, and keep it away from heat source (such as radiators, space heaters, stoves, and so on).
 - The appliance must be disconnected from the receptacle before removing the battery for disposal of the appliance.
 - The battery must be used in accordance with the directions in this Instruction manual.
 - Product manufacturer cannot be held liable or responsible for any damages or injuries caused by improper use.

4. Store the cleaner in a cool, dry place away from direct sunlight.

Troubleshooting

If there is any failure of Sticar200, please follow solutions below to check and solve the problems. If none of the solutions is workable, please contact the authorized agent for inspection and further solutions.

PROBLEM	POSSIBLE REASON	POSSIBLE SOLUTION
Machine does not work.	The battery power is low.	Check the battery power and recharge it.
The machine can not suck ash or suction is very weak.	• The dust box may be full. • Lack of battery power. • The filter set is blocked. • Non-dried filters after cleaning. • Air channel is blocked.	• Empty dust box. • Charge the cleaner. • Clean the filter set. • Dry the filters after cleaning. • Check the air channel and take out the blocked debris.
Dust escaping from vacuum.	• Dust box is full. • The filter set may not be installed.	• Empty dust box. • Check to see if the filter set is installed properly.
Short running time.	• Aged battery pack. • Non-fully charged battery pack. • Over heated or over cooled battery pack.	• Replace the battery pack. • Recharge the battery pack. • Cool down and restart.
No indicator when charging.	• Adapter/Type-C charging cable is not plugged in properly. • Adapter/Type-C charging cable is not original.	• Check the charging connection, make sure it is assembled properly. • Use the original adapter/Type-C charging cable.
Flashing red when charging.	Overheated battery pack.	Cooling the cleaner then recharge.

Product Warranty

- The Sticar200 has a 1-year limited warranty against original defects in workmanship or material.
- The warranty only applies to the authorized distributors of Mamibot.
- Improper usage or not in accordance with the user manual will void the warranty.
- The application of force majeure will be invalid.
- Normal reductions, such as battery aging, filters aging, brushes aging are not guaranteed.
- Please keep and provide your purchase invoice when making a claim.

Disposal & Compliance Standards

The symbol on the product or on its packaging indicates that this product may not be treated as household waste. Instead it should be taken to the appropriate collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local council, your household waste disposal service or the shop where you purchased the product.

The product has been tested and found to be compliance of the Council Directive 2014/30/EU, 2014/35/EU, and the council RoHS 2.0 Directive (EU) 2015/863/EU.

We reserve the right to changes in text, design, and technical specifications which are subject to change without prior notice.
